1. Purpose

Axactor has an ambition to be a socially responsible company acting ethically and lawfully in all aspects of its value chain. All employees shall have thorough knowledge of Axactor's policies and know how to proceed if they detect behaviour that violates Axactor's policies.

Axactor is determined to run its operations with a best practise attitude towards human rights, employment and the way we treat our fellow workers and those we meet through our work. Axactor shall act with professionalism, expertise and high ethical standards at all levels.

Axactor shall have a strong global commitment, anchored in our core values and the way we run our business. Axactor shall comply with applicable laws and regulations and act in an ethical, sustainable and socially responsible manner. This, combined with our vision statement and corporate principles lay the foundation for all work within corporate responsibility.

2. Target group

This policy applies to all BoDs, employees, including temporarily employment and consultants, and legal entities within the Axactor Group.

3. Governing principles

The Group’s corporate principles shall be reflected in our policies, procedures and shall describe how we make decisions, act, and prioritise both while planning and when conducting day to day operations. Simply complying with Group policies and procedures are not sufficient and it is essential that each employee, management and partners at all times act with the highest standards of ethical behaviour enshrined with Axactor’s values and business principles.

Axactor shall:

- always balance potential benefits of actions, against the consequences to society.
- incorporate profitable business with social, ethical and environmental goals and actions.
- communicate clearly its demands and expectations regarding corporate responsibility and ethical conduct to employees and business partners.
- have corporate responsibility as a defining factor when developing financial products and services, and a defining factor in our asset management operations.
- work to reduce its environmental foot print, and when purchasing products or services, high environmental quality shall be emphasized.
- work to prevent any potential criminal activities from occurring within the organisation.

- have a transparent management structure in line with national and international standards for good corporate governance building.
- have a strong compliance and internal control culture with an open reporting environment to receive and handle, in full confidentiality, at the earliest stage possible, all reports made about any occurrence, whether established or soundly suspected, of a breach of applicable laws and regulations, the company’s Business Practice Principles, or other ethical concerns reported
- only cooperate with clients, business partners and suppliers who operate in compliance with laws and regulations, good business practices and who maintain high ethical standards.

Zero tolerance of corruption

Axactor has zero tolerance of corruption in all its forms as outlined in our Code of Conduct and anti-fraud and anti-corruption policy. The zero tolerance of corruption is including facilitation payments extortion, bribery and trading in influence.

Loyalty and conflicts of interest

All employees are expected to be loyal to Axactor and its interests and shall refrain from participating in financial and/or business-related activities or decisions that could potentially create a conflict of interest between Axactor’s interests and their own personal interests or those of a close third party.

Respect of human rights

Axactor is fully committed to support and respect the protection of internationally proclaimed human rights. Axactor will not in any way be complicit in any sort of human rights abuses.

All units in Axactor shall comply with UN’s Universal Declaration on Human Rights, The UN’s Convention on Rights of the Child, International Labour Organisation Conventions (ILO conventions), the UN Guiding Principles on Business and Human Rights as well as other applicable conventions and international standards on Human Rights.

Take care of the environment

Axactor is conscious and interested in environmental issues. Axactor support a precautionary approach to environmental challenges, undertake initiatives to promote greater environmental responsibility, and encourage the development and diffusion of environmentally friendly technologies.
